

LINES REPRESENTED

Honey Girl Organics

"Made In Hawaii"

This line is as sweet as the honey that is in it! Anthony and Gwen moved to Hawaii and discovered on their property several bee hives. Anthony became a bee keeper. After discovering that Honey, Beeswax, Pollen and Propolis are natural emollients and anti-inflammatories, he decided to make a skin care product for his wife, Gwen. Honey Girl Organics was born. Relying on Nature, and their Organically Managed bee hives, this line is very concentrated, and very effective, and is thought to have age-reversing qualities. In addition to the facial products they have other unique products: Cuticle Cream, Mom and Baby Butter and a wonderful Serum Hair Treatment. Honey Girl Organics is food for your skin and entire Well-Bee-ING!

rareESSENCE Aromatherapy

rareESSENCE Aromatherapy was founded in 2011 by a husband and wife team, Brian and Sherri. Their shared love and passion for the power of plants guided them to create a premium line of products that include essential oils, roll ons, inhalers, body care, and rareCBD. In addition, they offer a selection of ORGANIC Perfumes, which are free from any synthetic fragrances and harmful chemicals. This is "rare".

Camamu

Camamu came into being at the end of 2000. Their focus and commitment has always been to create body care products that nourish, repair and rejuvenate using only natural ingredients and artisan production techniques. Their process is to stretch the creative possibilities of an 'everyday' object - visual beauty, color, texture and the subtle aromatherapy of essential oils are a big part of the joy of Camamu. Infusing many of the products with the gentle therapeutics of medicinal plants and herbs has resulted in soaps and shampoos that provide relief for a wide range of skin, hair and scalp issues.
